IJIFR is a prestigious international, peer-reviewed, refereed, open-access and multidisciplinary research journal renowned for its high impact factor, global indexing, excellence in scholarly publishing, strict ethical standards, COPE based review process and outstanding worldwide research visibility.

CALL FOR ORIGINAL RESEARCH PAPERS

Volume 14 | Issue 3 | November 2026 — **Continuous 160th Edition**

We are pleased to invite researchers, academicians, scientists, industry professionals, research scholars and postgraduate students to submit their **original, unpublished and high-quality research papers** for consideration in the **November 2026** edition of the **International Journal of Informative & Futuristic Research (IJIFR).**

Our Editorial & Publication Process

Initial Editorial Screening → Plagiarism Assessment → Peer Review → Author Revision, Where Required → Editorial Decision → Final Processing → DOI Assignment → Online Publication

Our objective is to not merely to publish papers, but to encourage originality, methodological rigor, research significance, ethical scholarship and meaningful academic contribution.

Why Choose IJIFR?

We provide a complete and professional research publication experience, from initial screening to online publication. Accepted papers benefit from a **double-blind** peer review, advanced plagiarism screening, professional formatting, publication support and a DOI for every paper. Authors also receive e-certificates and digital access to the published journal edition, with long-term online availability and global discoverability.
